Nedim

I am Nedim, I am from Sarajevo, I was born in the city. I am 19 years old, I finished the high school and I have plans for college. My hobby is graffiti. I paint graffiti, for about 7 years now. That's a short story.

We paint everything: legal, illegal, so everything, and now it is much much better situation than few years before, because we didn't have colours for graffiti and caps, nothing. We always painted with some local cans which are really bad, but now is much much better.

We have a couple of legal walls where we can paint. It is nice.

I hope I will finish college for painting, or architecture and I will always paint graffiti all life, for sure.

There are some negative things here because of the war and lot of people don't have enough money to have a normal life, that's the biggest problem here. But now, war finished 14 years ago, so now it is a better situation than before. I was here during the war, I lost everything, I didn't have a house, I didn't have anything, but now it is ok.

Three ethnics groups live here in Sarajevo and I speak normally with everyone. For me it is not a problem if he is not of the same religion, I am Muslim.

I just want to have always enough money to buy cans so I can paint whenever I want, I just want to have enough colours for painting. That's enough for me.
